データの復元の流れ

スタンプ履歴の保存方法

RALLYは初回アクセス時に参加者を一意に識別するIDを生成し、ブラウザのCookieという機能に保存しています。

スタンプや特典交換の履歴はIDごとにサーバーに保存されており、ブラウザ内に保存されたIDからサーバーを検索することで参加者情報を取得しています。

ブラウザの履歴を削除するとブラウザ内に保存されていたIDも消えてしまうため、新規参加者として処理されます。スタンプや特典交換の履歴も消えてしまいますのでご注意ください。

データの復元方法

万が一スタンプや特典の履歴が消えてしまった場合の対策として、復元用QRコードからデータを復元する機能を設けています。復元用QRコードを用いたデータの復元は、以下の手順で行ってください。

復元用QRコードを事前に保存

データを復元するには、復元用QRコードを事前に保存しておく必要があります。

参加者が初めてスタンプを獲得すると、復元用QRコードがポップアップ表示されます。この復元用QRコードを表示した状態でスクリーンショットを撮影し、保存してください。

復元用QRコードのポップアップ表示をするには、スタンプラリー管理画面のデザイン設定から、「初回スタンプ時にデータの復元ポップアップを表示する」を有効にする必要があります。詳細な設定方法については、[デザインの設定](#)をご確認ください。

Data Restoration Process How Stamps Are Saved RALLY generates a unique ID to identify participants upon their first access and saves it using a feature of the browser called "Cookies."

The history of stamps and reward redemptions is saved on the server based on this ID. Participant information is retrieved by searching the server using the ID stored in the browser.

If you delete your browser history, the ID saved in your browser will also be erased. As a result, you will be treated as a new participant. Please be cautious, as your stamp and reward redemption history will be lost. How to Restore Data As a measure in case the history of stamps and rewards is accidentally deleted, we have provided a feature to restore data using a restoration QR code. Please follow the steps below to restore data using the restoration QR code.

Save the Restoration QR Code in Advance To restore your data, you need to save the restoration QR code in advance.

When participants earn their first stamp, a pop-up displaying the restoration QR code will appear. Please take a screenshot while the restoration QR code is displayed and save it. [image]

To enable the pop-up display of the restoration QR code, you need to activate the "Show data restoration pop-up upon first stamp" setting in the stamp rally management screen's design settings. For detailed instructions on how to configure this, please check the design settings.

また、スタンプフリーアプリのページ下部にある「データの復元」>「復元用QRコードを取得」から復元用QRコードを再表示することもできます。この手順で復元用QRコードを表示した場合も、同じように用意のスクリーンショットを撮影して保存してください。

復元用QRコードをアップロードし、データを復元する

スタンプや特典の履歴が消えてしまった場合は、以下の手順で復元用QRコードをアップロードして、データを復元します。

1. スタンプフリーアプリのページ下部にある「データの復元」を押してください。
2. 「データの復元」を押してください。
3. 「ファイルを選択」を押し、事前に保存しておいた復元用QRコードのスクリーンショットをアップロードしてください。

4. 「データを復元する」を押してください。
5. 確認のポップアップが表示されるので、「はい」を押してください。
6. 「復元が完了しました。」と表示されれば、データの復元が完了です。表示されたリンクから最優先中のスタンプフリーにアクセスしてください。

データを復元すると、現在のスタンプ履歴や特典の交換履歴が上書きされ、復元用QRコードを発行した時点のデータに置き換わります。元に戻すことはできないので、ご注意ください。

復元用QRコードを保存していなかった場合の対応

復元用QRコードを保存していない状態でスタンプが消えてしまった場合、スタンプを復元することはできません。

また、現時点では特定の非加者にスタンプを付与する機能はありません。今後の機能追加で対応を検討しておりますが、それまでは消えてしまったスタンプをスタンプ返として扱うなどの運用でご対応いただくようお願いいたします。

Furthermore, at the bottom of the stamp rally app page, you can re-display the restoration QR code by selecting "Data Restoration" > "Obtain Restoration QR Code". If you display the restoration QR code using this method, also take a screenshot of the screen and save it.

Press "Data Restoration" located at the bottom of the stamp rally app page.

Click on "Data Restoration".

Press "Select File" and upload the previously saved screenshot of the restoration QR code.

image

Press "Restore Data".

A confirmation pop-up will appear. Click "Yes".

image

Once data is restored, the current stamp and reward exchange history will be overwritten and replaced with the data from the device that issued the restoration QR code. Be cautious as you can't revert this change.

Handling Situations Without a Saved Restoration QR Code:

If you lose your stamps without having saved the restoration QR code, it is impossible to restore the stamps.

Additionally, as of now, there isn't a feature to assign stamps to specific participants. While we are considering this feature for future updates, until then, if stamps are lost, we request operations to treat lost stamps as stamped.
